Limericks

With statistics, they can lie
Among thousands, they'll get by
Don't risk regret
Get yourself set
Learn graphs, effect size, and Chi

The prevalence of fact fabrication
Leads many to this contemplation:
To detect a fake,
What action to take?
Best get a statistics education!

Haikus

The mean by itself
Does not tell the whole story
So find out the spread

Standard Deviation
Great statistic to enhance
Better understanding

Big, mean difference
Wow! But better to start with
Effect Size Index

My p was so small
I just knew I had it made.
Wrong! Now I must think.

Our training pointed
To .05 as success.
No, not anymore.
